

CABLEPROTECT

Prevents accidents caused by trailing cables and leads, eliminating horrific personal injuries and damage to equipment such as computers. Loose cables can be securely retained in the gentle sloping flexible cableprotect. Our range of cableprotect can be used indoors, outdoors and on roads to protect temporary traffic-light cables etc. Why risk the Health & Safety of your staff, the public and your equipment.

- Manufactured in flexible vinyl and tested to BS6458: Section 2.1:1984 (IEC 695-2-1:1980) (No ignition at 750°C) and BS2782: pt 1: method 141: 1986 (ISO 4589:1984. This material is inherently self-extinguishing and achieves BS476: pt 7: class 3: 1987

- Easily installed, simply unrolled & cut to the desired length
- Cables or leads can be pulled through the bore hole, or the Cableprotect can be slit at the base with a sharp knife so the cables can be inserted quickly
- Other sizes available up to 50mm bore hole size
- Large Cableprotect is also available as Department of Transport approved. Please state 'DTp approved' when ordering

SPECIFICATIONS

PRODUCT	HOLE SIZE	OVERALL SIZE	COLOUR	APPLICATION	PART No.
Phone	16mm x 8mm	67mm x 12mm x 9mtrs	Black	Up to 4 phone leads	041022
Combi	16mm x 10mm each	93mm x 19mm x 9mtrs	Black	Separating groups of cables	040964
Multi	30mm x 10mm	80mm x 14mm x 9mtrs	Black	Multiple cables	041084
Speedi	11mm	75mm x 16mm x 9mtrs	Black	Rapid installation	040988
Double	11mm each	81mm x 15mm x 9mtrs	Black	Separation of cables & leads	041046
Large	14mm	90mm x 18mm x 9mtrs	Black	Larger dia. cables & leads Also available 'DTp approved'	040940
Power	26mm	145mm x 34mm x 5mtrs	Black	Power & armoured cables up to 1" dia.	041008
Comnet	32mm x12mm 16mm x12mm	110mm x 20mm x 9mtrs	Black Grey	Ideal where power & data lead capacity is unequal	041849 041862
Hazard	30mm x10mm	80mm x 15mm x 9mtrs	Blk/Yell	Highly visible, multiple cables	041881
